

KEEPING A TAB

If only a tablet will do on campus, the latest 11-inch iPad Pro fits the bill. The M4 SoC offers impressive processing power, which can easily handle demanding tasks—from data-heavy spreadsheets to 3D-modelling and video editing. It can even run multiple apps simultaneously, while the Ultra Retina XDR display is a pleasure to use. The Pro's battery can last through the day, while it supports efficiency-boosting accessories such as Apple Pencil Pro and Magic Keyboard.

This 11-inch tablet, along with its accessories, could be all that you need to carry on campus

GOOGLE PIXEL WATCH 2

₹35,990

Stay healthy and organised with this smartwatch

WRIST CHECK

Whether you're into fitness or not, it makes sense to keep track of your vitals as they can impact academic performance. Enter the Google Pixel Watch 2, which besides being capable, is also stylish. With Fitbit integration, it offers health and fitness features like sleep patterns tracker, activity levels monitor, and stress tracker. The Google Assistant allows for voice interaction, setting reminders, etc., while the Corning Gorilla Glass 5 ensures the AMOLED screen can take some knocks.

Pocket Snapper

If you are a budding photographer, the name Leica will strike a chord. While carrying a camera on campus might not be practical, a phone with a quad 50MP Leica camera system could be the next best thing. Besides its photography chops, the Xiaomi 14 Ultra is also a powerful phone with a Snapdragon 8 Gen 3 processor that handles multitasking, demanding applications, and mobile gaming with elan. The 6.73-inch AMOLED screen is great for reading books, while the 5,300mAh battery will get you through a long day.
