

fers, Cells, and Modules and including ancillaries like glass, EVA, backsheet, aluminium frames, junction boxes and others in Mundra. The business operationalized MSPVL (Mundra Solar PV Ltd.) cell lines. The company has consistently been India's first, largest and most trusted vertically integrated Solar PV cells and modules manufacturer from 1.2 GW to 1.5 GW in 2019, 2 GW in 2021 and 4 GW in 2023.

Data Centers (AdaniConneX): AdaniConneX, a 50:50 JV between Adani Enterprises Ltd (AEL) and EdgeConneX, has a goal to have a 1GW data center platform in a decade that empowers Digital India – with an under-construction pipeline of 210 MW+ across multiple locations in India. Phase 1 of 17 MW data center in Chennai is operational, with Noida, Pune and Hyderabad centers nearing completion.

II) TRANSPORT & LOGISTICS:

Airports: With seven airports in its management and development portfolio, Adani Airport Holdings Ltd (AAHL) is India's largest airport infrastructure company, accounting for 23% of passenger footfalls and 30% of India's air cargo traffic. The company served 89 million passengers, representing 19% growth in FY24, and created 42 new routes and added 20 new airlines across seven airports. New terminal (Terminal 3) building at Lucknow became operational. Navi Mumbai Airport will open by first half of 2025. Going ahead, AAHL is focused on smart planning of airside and terminals to sweat airport assets to the fullest. It is investing in upgrad-

ing all its airports to offer seamless experience to all its passengers and at the same time offer them with best-in-class consumer experience.

Roads: Adani Roads Transport Ltd (ARTL) operates in the infrastructure sector. Currently, it has 14 projects with 5,000+ lane kms having strong pipeline with huge growth potential, including landmark projects like the Ganga Expressway, one of the largest in progress.

III) PRIMARY INDUSTRY:

Mines & Metals: The integrated business model at Adani Natural Resources consists of diverse businesses including:

- Integrated Resource Management (coal, bunkering, LPG, iron ore)
- Mining services: A portfolio of 9 MDO contracts, 5 are already operational mines

- International coal mining: Carmichael (Australia), Bunyu (Indonesia)
- Metals: 500 KTPA Copper plant at Mundra, Kutch is already operational with provision to expand to 1,000 KTPA in future.

PVC: 1 MMTPA capacity of PVC planned at Mundra SEZ with flexibility to expand up to 2 MMTPA. It is going to reduce import dependency of polymers and mitigate demand supply gap (3-4 MMTPA demand in India). AEL strives to make a positive difference in the environment and society through its ESG initiatives and its adherence to the highest standards of governance and ethics. AEL is a future-ready company that is prepared to seize the opportunities emerging from the changing world and deliver long-term value for its shareholders and stakeholders.
