

TRAINING BUDDY

Designed for athletes and runners, this smartwatch offers customised training and advanced fitness metrics. Besides the usual features, it comes with a Pulse OX Blood oxygen saturation monitor, barometric altimeter, floor climb, and compass. The 1.2-inch AMOLED touchscreen is smooth and easy to read on the go. With a claimed battery life of 11 days, it is a worthy companion for marathons. For triathletes, the watch offers water resistance up to 50 metres and GPS. Plus, you can carry music on your wrist.

Training for a marathon or triathlon? This watch will keep you motivated

All-day Companion

Want a flagship watch that's comfortable to wear 24x7, silently tracks your vitals, runs Google's Wear OS and is compatible with all Android phones? Get the Pixel Watch 3, which comes with a fresh design, improved performance and in two size options—41 mm and 45 mm. With comprehensive tools for fitness and recovery, and Google apps on your wrist, the watch comes with water resistance of 50 mm. It also sports a feature called Loss of Pulse Detection (only in select countries) that can potentially save lives.
