THE JOBS CONUNDRUM

JOBS ARE ON THE RISE IN INDIA, BUT HIGH-QUALITY AND WELL-PAYING JOBS ARE NEEDED AS INDIA PROPELS INTO THE NEXT STAGE OF GROWTH

BY VIDYA S.

WORK PRESSURE

- 1** While jobs have been on the rise in India, the quality of jobs and the wages are of concern
- 2** Agriculture still accounts for 45% of the jobs, while manufacturing's share is 11%
- 3** Informalisation, or jobs without salary or social security, is also on the rise. It accounts for 74% of the non-farm economy
