

AYODHYA

Pinnacle of Seamless Connectivity and Global Tourism Excellence

Ayodhya is poised to become one of the world's most prominent tourist destinations due to its rich historical and cultural significance, particularly with the magnificent Shri Ram temple. Double Engine government is strengthening and expanding rail, road and air routes to meet the surge in tourist footfall.

MAHARISHI VALMIKI INTERNATIONAL AIRPORT AYODHYA DHAM

Lord Ram had said about Maharishi Valmiki, "तुम्हें त्रिकाल दर्सी मुनिनाथा। बिस्व बदर जिमि तुम्हें हाथा।।" i.e., you are the seer of all three forms of time and the universe is like a berry in your palm. Naming the Ayodhya Dham Airport after the visionary Maharishi Valmiki. Maharishi Valmiki International Airport is going to play a significant role in this by enhancing connectivity between Ayodhya and the nation as well as the world.

Covering an expansive 821.34 acres, the much-anticipated Maharishi Valmiki International Airport Ayodhya Dham is well on its way to becoming a symbol of excellence in aviation infrastructure. The completion of Phase-1 marks a significant achievement and the finalization of a 2200m x 45m runway. The terminal building, boasting a total capacity to accommodate 500 passengers, stands as a testament to the airport's commitment to providing efficient and passenger-friendly services. Noteworthy amenities extend to a designated parking area for 200 vehicles, comprising 150 cars and 50 large vehicles, ensuring a seamless experience for travelers and visitors alike.

RAILWAY AND ROAD NETWORK

Having undergone a comprehensive upgrade and expansion the Ayodhya Dham Junction Railway Station represents a testament to modernization and improved facilities. With a total of 6 platforms, the station is well-equipped to handle the substantial passenger traffic, accommodating up to 50,000 individuals.

An International Bus Terminal with state-of-the-art facilities with a four-lane road between Ayodhya and Chitrakoot is also in the offing. Roads connecting Ayodhya to Sultanpur, Basti, Prayagraj and Varanasi would be widened into six-lane for seamless traffic movement.
