

ELECTRIC VEHICLE MANUFACTURING: CHARGING AHEAD TO 2047

The Vibrant Gujarat Global Summit 2024 hosted a dialogue on the theme “Charging Ahead to 2047,” with a primary emphasis on the manufacturing of electric vehicles. Representatives of companies engaged in EV production attended the summit, and actively participated in discussions to propel India forward in the field of electric mobility.

Speaking at this seminar, Chief Minister Shri Bhupendra Patel reaffirmed his government’s commitment to the development and growth of the electric vehicle industry, emphasizing the importance of a robust charging infrastructure for the sector’s success. He spoke about how the Gujarat government is proactively working to attract investors for electric vehicle manufacturing by encouraging research and development.

Chief Minister invited business leaders, industry pioneers, and innovators present at the seminar to actively participate in Gujarat’s electric vehicle ecosystem. He encouraged them to join hands in creating a sustainable, environmentally friendly, and economically viable future.

Union Transport Minister, Shri Nitin Gadkari, shared his thoughts on how India can progress in the EV ecosystem and overcome challenges to become a global leader in the evolving EV ecosystem. Emphasizing the importance of adopting sustainable and eco-friendly technologies to drive economic growth in the country

and create a vibrant EV ecosystem. He highlighted the potential of the EV sector to contribute substantially to the Indian economy and generate substantial employment opportunities, making it a key player in the global automotive market.

Union Minister of Heavy Industries, Shri Mahendra Nath Pandey, expressed that under the successful leadership of Prime Minister Narendra Modi, India has become a global brand. He mentioned that Gujarat is playing a crucial role in India’s development and emphasized the importance of the state as the growth engine of the country.

Gujarat’s Transport Minister Shri Harsh Sanghavi, acknowledged Gujarat’s historical role in initiating Vibrant Gujarat under the leadership of Prime Minister Narendra

Modi. He mentioned that Gujarat has become the growth engine of the country and assured all stakeholders that the returns on investments in the state would be the highest, providing a safe environment for businesses. He appreciated the entrepreneurs who chose to invest in Gujarat in the last 20 years, highlighting their success and their role as brand ambassadors for the state.

Gujarat’s Minister of Industry, Shri Balvantsinh Rajput, stated that Gujarat has become a vibrant brand globally. He acknowledged that due to the electric vehicle policy of the Gujarat government, there has been significant progress in the purchase of electric vehicles in the state. He emphasized the need for the development of industries for the overall progress of Gujarat and India.
