

TECHADE: HERALDING INDIA'S TECHNOLOGICAL DECADE

At this seminar, more than 25 experts presented their experiences and dimensions of development in the field of technology, including fintech, deep tech, and cyber security. More than 2000 technocrats attended this important seminar on technology

Speaking at this seminar, Vijay Shekhar Sharma, the founder and CEO of Paytm, a leading company in the digital payments space, described his experience of the digital revolution that has taken place in India under the leadership of Prime Minister Narendra Modi and the subsequent growth of startups working in the digital space. He added, "Prime Minister Narendra Modi said that if you are a part of a startup, you are not a person standing at the edge but the first person standing in the corporate ecosystem. It is due to his leadership that startups have become a way of life in the last ten years. In the last ten years, India has not only be-

come the largest internet market but has also emerged as the largest English-speaking market." He added, "It is due to India's current capabilities that today we do not need to go anywhere outside; countries of the world are eager to befriend us and are joining us as partner countries. Today, India is the 'Land of Opportunities,' and the coming ten years will become the 'Great Indian Dream' for everyone."

Punit Chandok, President of Microsoft India Pvt. Ltd., presented his valuable insights on deep tech and generative artificial intelligence. He shared his thoughts on the need for this technology and how

humans will need to develop new skills in the coming years.

While addressing the gathering, Chief Secretary of the State, Shri Raj Kumar, shed light on the various facilities being provided by the Government of Gujarat in the IT sector. The Government of Gujarat is working with a big vision in the IT sector, and for this, through the IT & ITeS Policy announced by the State Government, companies working in the IT sector are given 25% capital support. The target of the State Government is to take Gujarat to the top 5 states in the IT sector by the year 2027.

PORTS FOR PROSPERITY AND PORTS FOR PROGRESS

As part of VGGGS, to explore, discuss, and promote the transformative potential of port-led city development, Gujarat Maritime Board organized a seminar on 'Port-Led City Development' that brought together government officials, industry experts, and international stakeholders to advance Gujarat's maritime vision and generate valuable insights and recommendations that will help in advancing and realization of the Vision of Port-Led City Development.

While speaking at this seminar, Chief Minister Shri Bhupendra Patel, spoke about how the Vibrant Gujarat Global Summit which began in 2003 by Prime

Minister Shri Narendra Modi during his tenure as Chief Minister has made Gujarat a pioneer in port-led development in the last two decades. The state has established itself as a role
