

GROWING YOUR WEALTH WITH MUTUAL FUNDS

D.P. Singh, Deputy MD & Joint CEO, SBI MF

- ▶ Highlighting the strengthening mutual fund sector, D.P. Singh said the country is seeing diversified demand come in for MF products like SIPs as now there's an initiative to lower the ticket sizes for investments to as low as ₹250, going up to ₹10 lakh
- ▶ Singh said that today the operational costs of MFs are high, which hamper the returns of low-ticket size SIPs, hence all the stakeholders need to work towards reducing costs to increase the number of people investing through MFs
- ▶ Taking about the importance of asset allocation when investing in MFs, Singh emphasised that it is not necessary to start investing through equity MFs, as there are other robust products like hybrid MFs, multi-asset MFs, among others

THE SHAPE OF INDIA'S ECONOMIC RECOVERY

(From left) **Siddharth Zarabi**, Managing Editor, BTTV

Aurodeep Nandi, India Economist & Vice President, Nomura India

Indranil Sengupta, Economist and Head of India Research, CLSA

Sachchidanand Shukla, Group Chief Economist, Larsen & Toubro

- ▶ Aurodeep Nandi said that although government and private capex are driving growth, concerns like slowing consumption growth and rate hikes across the world could vitiate the near term outlook for India

- ▶ Indranil Sengupta said that once the US Federal Reserve stops raising interest rates,

even India might see a reversal of the rate hike cycle, bringing relief to the economy

- ▶ Sachchidanand Shukla said that despite multiple shocks, the Indian economy has remained resilient at a growth rate that has the potential to double the size of the economy nearly every six years
