

EXPANDING HORIZONS, TEEING OFF FOR GREATER GROWTH

Gujarat Mineral Development Corporation Ltd. (GMDC) is India's No.1 merchant seller of Lignite and one of the leading mining companies. With a significant presence in metals and minerals and a diversified power portfolio comprising a thermal power plant and renewable energy installations generating wind and solar power, we are empowering Gujarat's industrial development.

Delivering a phenomenal performance

In our journey of transformation, our financial performance scaled new heights in growth, and we achieved our highest figures ever. As a token of appreciation to our valued shareholders, we announced the declaration of our highest-ever dividend.

Adding scale and strength

We have initiated ways of working with an array of globally-reputed strategic advisory consultancies.

PROJECT SHIKHAR
A STRATEGIC TRANSFORMATION INITIATIVE AT GMDC LTD.

We undertook an extremely important strategic initiative. Christened Project Shikhar, it is a futuristic initiative towards building a diversified portfolio,

unlocking efficiency gains and helping GMDC become a pan-national player in the Mining and Minerals sector.

Towards meeting India's energy needs

There is an ever-increasing demand for Lignite from the MSME sector. To meet it, we are seeking to scale up Lignite production capacity and operationalise our 6 new lignite mines. Further, as part of our strategic diversifications, we are set to access domestic coal from Odisha. Recently, we won two coal blocks in Odisha at Burapahar and Baitarni West. The Baitarni West block is one of India's biggest blocks.

Building capabilities in non-Lignite business

We are working on a Project at Ambaji towards operationalising our mine located there. Besides exploring Copper, we are seeking to also mine Lead and Zinc. Our Lignite blocks in Kutch are home to huge quantities of cement-grade Limestone, and

we are seeking to partner with large cement manufacturers.

Embracing responsible working

Impacting the lives Of communities

GMDC Gramya Vikas Trust (GMDC-GVT), an initiative of GMDC, is improving and impacting the lives of the communities where we operate: enabling creation of a skill-based ecosystem, promoting quality and inclusive education, addressing gaps in health facilities through providing access and ensuring availability of healthcare services to the remotest of areas and more.

Our foray into clean, sustainable and renewable energy which happened more than a decade ago is aimed at providing greater thrust to achievement of Net Zero targets and combating climate change.

Expanding our horizons and building an ecosystem of **growth and development**

Through tapping into new markets, gaining access to valuable resources and capabilities, enhancing competitive advantage, focusing on renewable energy and acquiring talent with specialised skills and domain expertise, we are expanding our horizons and building an ecosystem of growth and development.
