

THE SUN RISES OVER YES BANK

In May, SMBC, Japan's third-largest bank, agreed to acquire a 20% stake in YES Bank for \$1.6 billion. It has now increased it to 24.2%, becoming the largest shareholder

SMBC, with over \$2.3 trillion in global assets, had entered India in 2013 with a foreign banking licence. It has five branches in India

Two SMBC representatives, Shinichiro Nishino and Rajeev Veeravalli Kannan, have joined YES Bank's board as non-executive directors

The partnership aims to strengthen YES Bank's governance, strategic direction, and capital base, while leveraging SMBC's global network

YES Bank is expected to get a boost in corporate banking, treasury, and trade finance businesses, especially considering the growing Japan-India economic ties
