

Cargo Volume Growth (MMT)

*Source: APSEZ

Economic Zone (APSEZ) are complementing this push with transformative scale and integration. APSEZ's 15 ports and terminals form a pan-India logistics backbone, handling nearly half of India's container traffic. Its investment in automation,

WHAT IS IMEC?

- The India-Middle East-Europe Economic Corridor (IMEC) is a multi-modal project that aims to create a seamless transportation network of ports, railways, roads, sea lines and pipelines to enhance trade relations between India, the Arabian Peninsula, the Mediterranean region, and Europe.
- This strategic initiative was launched during the G20 Summit in New Delhi in September 2023.
- It has two corridors:
Eastern Corridor: Connecting India with the Middle East region and
Northern Corridor: Connecting the Middle East region with Europe.
- The project is supported by India, the US, Saudi Arabia, the UAE, France, Germany, Italy, and the European Union.

APSEZ GETS 'OVERWEIGHT' RATING FROM CANTOR FITZGERALD

Cantor Fitzgerald, a leading US-based financial services firm, indicates a rosy outlook for Adani Ports. It believes the listed infrastructure entity will outperform its benchmark or peers in the market.

1. FINANCIALS AND VALUATION

- Forecasts mid-teens growth in revenue, EBITDA and cash flow through 2029.
- Target price based on 16x FY27E EV/EBITDA and discounted cash flows through FY36.
- Expects potential special dividend in FY2027, driven by strong free cash flow and low net leverage (below 2.5x).
- Strong track record: Revenue, EBITDA

and operating cash flow have grown at 20% CAGR over the past five years.

2. BUSINESS OUTLOOK

- APSEZ is well-positioned to benefit from India's underdeveloped trade infrastructure.
- Aims to double port capacity to 1 billion MMT by 2030, supported by favourable government policy.
- Logistics volumes expected to grow

5x by FY2029, driven by e-commerce, industrial growth, and public investment.

- Marine services targeted to triple revenues between FY2025 and FY2027 through market expansion and asset additions.
- Strategic coastal locations, diversified cargo mix, and growing global presence help reduce business cyclicality.

smart logistics, and hinterland connectivity is setting new benchmarks for efficiency. With global trade flows in flux, India's bet on ports is both economic foresight and geopolitical strategy. By investing in capacity, connectivity, and capability, the country is not just expanding maritime infrastructure—it is building the foundation of a resilient, future-ready global trade network.

Post-Pandemic Trade Realignment

The Covid-19 pandemic triggered shifts in trade flows. The US deepened ties with Mexico and Vietnam; Europe diversified energy imports away from sanctions-hit Russia. India, too, expanded its trade footprint across Asia, Europe, and the US since 2017. However, the ongoing tensions in the Middle East are testing maritime stability, with sanctions, port access, and rerouted ships creating global ripple effects.

APSEZ: Anchoring India's Maritime Ambitions

India's maritime push is supported by a

TOP 10 PORTS IN THE WORLD

Rank	Port (Country)	Throughput (TEUs, million)
1.	Shanghai (China)	~50
2.	Singapore (Singapore)	~39–41
3.	Ningbo-Zhoushan (China)	~35
4.	Shenzhen (China)	~29.9
5.	Qingdao (China)	~28.8
6.	Guangzhou (China)	~25.4
7.	Busan (South Korea)	~22.0
8.	Tianjin (China)	~21.0
9.	Hong Kong (China SAR)	~14.0
10.	Rotterdam (Netherlands)	~14.5

strong private sector leadership, notably APSEZ. The listed entity is shaping India's global maritime presence. The fully automated Vizhinjam Port in Kerala, India's first mega transshipment hub that was dedicated to the nation by Prime Minister Narendra Modi on 2 May, strengthens the country's ability to host ULCVs such as MSC Turkiye and MSC Irina on key routes between China and Europe.

While Asia leads in cargo volume, India's expanding infrastructure and smart port investments position it as a future hub for transcontinental shipping.

Powering India's Maritime Future

With shifting geopolitics, rising trade demands, and a robust public-private port model, India is future-ready. Through investments in automation, green energy, and integrated logistics, APSEZ and other players are not just supporting India's growth—they are redefining the strategic geography of global trade.

In an era where every shipping lane and container counts, India's rise in the maritime world, which is synonymous with APSEZ's growth, is a story of vision, velocity, and scale—anchored by strategic planning and powered by ambition.

Vizhinjam Port in Kerala, India's first mega transshipment hub, strengthens India's ability to host ULCVs like MSC Irina on key international trade routes between China and Europe.
