

\$30-TRILLION ECONOMY: REAL OR PIPE DREAM?

Amitabh Kant, Former G20 Sherpa & Former CEO, NITI Aayog

Kant outlined that reforms, innovation, infrastructure, and private-sector dynamism are needed to achieve the goal of becoming a \$30-trillion economy by 2047

He highlighted that India's demographic dividend, start-up ecosystem, and governance evolution must align with global opportunities

On GST, he said, "There's a critical need to simplify the GST regime—especially at the state level"

He argued that India needs just 12 champion states growing at 10% to lift national growth to 9%

Speaking about devolution to states, N. K. Singh said states are right when they are saying that the actual devolution has been less than the recommended 41-42%

"Today federalism should not be about what the Union government needs, but what the economy needs... We need a new federal compact which brings in markets and governments," said economist Drabu

STATES' ROLE IN POWERING INDIA

BEYOND TRUMP'S TARIFFS

(From left) **Ajay Srivastava**, Founder, Global Trade Research Initiative **Agneshwar Sen**, Trade Policy Leader, EY India **Ajay Sahai**, DG & CEO, FIEO **Harsha Vardhana Singh**, Chairman, IKDHVAJ Advisers

Srivastava said Trump's tariffs were a shock for the industry, while congratulating the government for not capitulating to Trump

Singh said, "WTO will not remain the same but become plurilateral...There will be a new world order"

Sahai, speaking about the domestic industry, said, "It is not possible for most businesses to absorb the 50% hit"

Sen said 65% of the trade will be hit now but one cannot be certain of what will happen to the 35% tomorrow
