

Smart classrooms and e-learning modules have been introduced for students.

Skill development programmes in tailoring, masonry, electrical works, and other trades are organised regularly.

EMPOWERING INDIA: ONE VILLAGE AT A TIME

Since 1996, the Adani Foundation has been actively investing in strategic social development initiatives across India. Operating in 7,060 villages across 21 states, the Foundation impacts over 9.6 million lives through programmes in education, health and nutrition, sustainable livelihoods, climate action, and community development.

solar streetlights and rejuvenated 85 ponds across 25 villages, aiding over 6,000 families.

5. Green Initiatives: Greening the Growth

As part of the Adani Group's commitment to planting 100 million trees by 2030, the Foundation has:

- Planted 76,000+ trees since 2023–24 in Godda and Sahebganj districts.
- Partnered with 2,500 farmers and 27 community institutions across 110 villages.
- Contributed to the global One Trillion Tree Campaign.

A Model for Inclusive Development

The Adani Foundation's integrated development model in Godda district is creating lasting impact across sectors. Its approach—grounded in participation, sustainability, and empowerment—has transformed villages from underserved outposts to aspiring centres of progress.

As the power plant lights up homes beyond India's

borders, its social arm is brightening lives at home, demonstrating that inclusive industrialisation can be a powerful force for good.

Key Educational Initiatives:

Adani University, Ahmedabad – Established in 2015, offering specialised programmes in technology, infrastructure, sustainability, and management. In 2022, it was officially recognised by the Gujarat Legislative Assembly and is sponsored by the Adani Institute for Education and Research (AIER).

Adani Foundation Schools – Providing holistic learning through **41 Schools managed by the Adani Foundation** across the country.

Our **41 Adani Schools** (including **four Adani Vidya Mandir Schools**) are temples of learning - providing an enabling environment, and high-quality education. The schools equip students with the knowledge, confidence, and moral foundation needed for success.

■ **Adani Vidya Mandirs (AVMs)** – Providing cost-free education to children from economically weaker sections in state-of-the-art campuses in Ahmedabad & Bhadracharya in Gujarat, Surguja in Chhattisgarh and Krishnapatnam in Andhra Pradesh.

■ **Adani Schools** – 37 subsidised schools spread across India, providing students' holistic development through value-based learning, experiential education, and skill-building initiatives.

■ **Utthan** – Project Utthan is aligned with the National Education Policy (NEP) 2020 and is focusing on improving foundational literacy and numeracy in

government primary schools, with a special emphasis on empowering Priya Vidyarthi (progressive learners). Each school is supported by an Utthan Sahayak, a dedicated teacher who drives the transformation.

■ **Gujarat Adani Institute of Medical Sciences (GAIMS), Bhuj** – A public-private partnership (PPP) medical college and 790-bed multispecialty hospital, addressing healthcare needs in the Kutch region. GAIMS spread across 27 acres of lush campus, offers 150 and 94 seats annually to undergraduate and post-graduate medical students, respectively.

■ **Datta Meghe Institute of Higher Education and Research (DMIHER), Maharashtra** – Adani Foundation has recently tied up with the institute to develop it into a global Centre of Excellence (CoE) in affordable healthcare education and delivery mechanism. DMIHER currently operates 15 institutes and 5 teaching hospitals and offers 217 academic programmes across 13 disciplines, including undergraduate, postgraduate, super-specialty, doctoral and fellowship courses.

GODDA: AT A GLANCE

Total district population: 1,313,551

Total ST population: Around 2,77,000

Percentage of tribal population: 21.27%

The tribal population primarily consists of Santhals, along with other groups like Paharias and Mundas. These communities are largely dependent on agriculture, forest produce, and traditional livelihoods.

Source: 2011 Census

Mobile medical units are engaged to conduct checkups and provide maternal and childcare services across the district.

Local women are encouraged to grow and sell mushrooms so that they can add to their household income.
