

FLASHY FLAGSHIPS

Three flagship phones—Nothing Phone (3), Samsung Galaxy Z Fold 7, and Samsung Galaxy Z Flip 7—are user-friendly upgrades from their previous offerings

BY PRANAV DIXIT

SAMSUNG GALAXY Z FLIP 7

₹1,09,999 for 256 GB

The Flip 7 version feels fair for what it offers. It's not a radical upgrade, but it is Samsung's most refined Flip yet.

POLISHED, POCKET-SIZED, AND PLAYING IT SAFE

► The Galaxy Z Flip 7 is one of those phones that instantly get noticed. Unfold it in a café or flip it open during a call, and heads turn. It's stylish, sleek, and futuristic, but more importantly, it's refined. Samsung's seventh-gen flip phone doesn't revolutionise the format, but it doesn't need to. This is a phone that's all about making a good thing even better. At first glance, it doesn't seem that different from last year's model, but small upgrades make a big impact. It's a little thinner when folded, a little taller when open. And the new 4.1-inch outer display is the real star. It wraps around the camera module beautifully.
