ing the balance sheet. The bank provided ₹7,000 crore for pensions during the quarter. “We could have taken it in four quarters. Front-loading the cost has always been our strategy,” he said.

SBI’s merger with five associate banks in 2017 has had a positive impact on its performance. Ventura Securities’ Bolinjkar says the lending process is a lot more watertight now. “Its portfolio is more protected. It also has stricter collection mechanisms. NPA recognition is a lot stricter. One is seeing the benefits of technology adoption at scale,” he says.

In fact, technology is at the core of the business model. Setty said while announcing the Q4 results that the bank doubles in size every six-seven years. “We were ₹30 lakh crore in 2018 and became ₹60 lakh crore in 2024. We have not doubled our branches, we have not doubled our headcount, but have brought in efficiencies through digitalisation and strongly be-
