

lieve in new-age technologies like AI,” he said. SBI, he added, was an early adopter of predictive AI modelling in the banking sector.

Like SBI, HDFC’s merger with HDFC Bank meant the ability to capitalise on multiple growth opportunities. HDFC merged into HDFC Bank to create a \$40 billion entity in April 2022. “It has transformed HDFC Bank into an owner of trusted home loan products from a reseller. Home loans have a longer duration and help the bank garner additional liabilities, offering more opportunities to cross-sell,” says CFO Srinivasan Vaidyanathan. With three subsidiaries coming into the fold, the larger entity can now sell more life insurance, general insurance and mutual fund products. “The addition of the home loan portfolio has resulted in a stronger balance sheet and ability to better tap into India’s growth story. The merger has created transformational opportunities,” he says.
