

19% Rise in Wipro's PAT, the highest in the Top 5

24% Increase in average market cap of HCLTech

remained high, with its market cap swelling nearly 19% YoY to ₹7.3 lakh crore.

HCL Technologies, the third on the list, saw an impressive 11% increase in PAT at ₹17,399 crore. Net sales rose 6.5% to ₹1.17 lakh crore, margins were 15%, while market cap surged 24% to ₹4.6 lakh crore.

Wipro, long seen as struggling to grow, staged a comeback in FY25. Its PAT jumped 19%, the highest among the top five, to ₹13,218 crore, despite a marginal dip in revenues of 0.7%. Improved operational efficiency lifted margins to 15%, while market cap rose 23% to ₹2.86 lakh crore.

LTIMindtree, the youngest of the top five, clocked a PAT of ₹4,602 crore, relatively flat compared with the previous year. Its revenue rose 7% to ₹38,008 crore. Profit growth was just under 1%, with margins at 12%,

lower than that of its peers. Still, the firm continues to gain scale and visibility, with a market cap of ₹1.64 lakh crore. Among others in the top 10, InfoEdge saw the highest increase in PAT at 120%, while Tech Mahindra's PAT rose 77%. In revenue, Persistent Systems was the leader, with a 22% rise in the topline.

However, the sector is facing big challenges. The rise of agentic AI has changed the game. Infosys CEO Salil Parekh said after the Q1FY26 results that the tech giant is laying emphasis on AI agents. Wipro, too, announced that it has deployed over 200 AI power agents using advanced technologies from leading hyperscalers for industry and cross-industry solutions.

Though it is too early to assess the impact of AI agents, they has already created a significant buzz, and not all the news is upbeat. TCS' recent announcement
