

Dr. Mehta's Hospitals: Leading Multi-Speciality Care in Chennai and Tamil Nadu

"With a legacy spanning over 90 years in Chennai, Dr. Mehta's Hospitals has become one of South India's most trusted multi-speciality healthcare institutions. Founded in 1933, the hospital has consistently delivered world-class, ethical, and affordable healthcare to patients across Chennai, Tamil Nadu, and beyond.

Our clinicians have been the driving force behind this trust, raising standards across every hospital unit and enabling milestones such as 2 million safe births and over 5 million advanced surgeries. This legacy continues to shape our future, as we scale Centres of Excellence across India with an unwavering commitment to clinical excellence, patient safety, and a healthier tomorrow.

With two state-of-the-art campuses in Chetpet (Central Campus) and Velappanchavadi (Global Campus), Dr. Mehta's Hospitals today offers advanced medical care across specialties, including paediatrics, paediatric surgery, neonatology, cardiology, obstetrics & gynaecology (OBGYN), internal medicine, critical care, and emergency medicine."

Comprehensive Care for Every Stage of Life in Chennai

Dr. Mehta's Hospitals caters to a wide range of patients, addressing their unique health needs. Families in Chennai and nearby Tamil Nadu districts trust the hospital for maternity and child healthcare, including prenatal care, neonatal intensive care (NICU), and paediatric specialties. Expectant mothers benefit from personalised guidance by expert obstetricians, while children receive preventive care, early diagnosis, and specialised interventions.

A Legacy of Clinical Excellence Spanning Nine Decades

For over nine decades, Dr. Mehta's Hospitals has stood as a pillar of healthcare in South India. What began in 1933 as a modest initiative has grown into one of Chennai's most advanced and trusted institutions, serving generations of families. Throughout this journey, the hospital has touched the lives of millions, consistently prioritising safe, ethical, and patient-centred treatment.

The legacy is reflected in outcomes that few hospitals in India can match. To date, the institution has overseen more than 1 million safe births, highlighting its unmatched expertise in maternity and neonatal care. Its advanced NICUs, supported by world-class specialists,

have ensured that 97% of premature and underweight newborns are safely discharged—a benchmark in clinical excellence.

Beyond maternity care, the hospital has performed over 2.5 million successful surgeries across specialties, ranging from minimally invasive interventions to highly complex procedures. Its transplant program has also expanded steadily, with over 140 successful kidney transplants, offering new hope and improved quality of life for patients with organ failure.

Centres of Excellence with a Measurable Impact

The hospital's two campuses are home to specialised Centres of Excellence (COEs), each designed to deliver outcome-driven healthcare.

- **Women & Child Health:** With a 90-year legacy, the hospital is a leader in maternity, neonatology, and paediatrics. Its NICU survival rates for preterm babies are among the best in the region, supported by advanced technology and experienced neonatologists.

- **Cardiology & Critical Care:** Thousands of successful cardiac interventions, including angioplasties, bypass surgeries, and minimally invasive procedures,
