

IMPORTS IN FAST LANE

For India, trade agreements have translated into far higher imports than exports. Is this the time to relook at the deals?

IMPORTS RISE MORE

AFTER 1991, INDIA'S IMPORTS AND EXPORTS GREW ALMOST IN LOCKSTEP UNTIL THE MID-2000S; THEN, IMPORTS PULLED DECISIVELY AHEAD. IN 2025, IMPORTS OF \$755.3BN VERSUS EXPORTS OF \$445BN LEFT A GAP OF OVER \$310BN
