

REFORMING FOR LOWER IMPORTS

Oil & gas supplies were badly hit during the West Asia crisis, making the government focus on ramping up domestic exploration, diversifying the import basket, coal gasification and increasing strategic reserves. Here is a look at the recent policy changes introduced for energy security

IMPORT BILL: \$123.3 billion in FY26

89%

Dependence
for crude oil

51%

Dependence
for gas

DIVERSIFICATION PLAY

INDIA HAS DIVERSIFIED OIL AND GAS SOURCING ACROSS 40 COUNTRIES COMPARED TO 27 A DECADE AGO. THE STRAIT OF HORMUZ IS A CRITICAL GLOBAL CHOKEPOINT THAT CARRIES ABOUT 40% OF INDIA'S CRUDE IMPORTS; 60% ARRIVE VIA RUSSIA, WEST AFRICA, THE AMERICAS, AND CENTRAL ASIA

The US
emerged as the
largest LNG
supplier to
India in May with
41% share

US: 900,000
tonnes LNG
compared to
200,000 tonnes
monthly
average in 2025

UAE: 100,000
tonnes compared
to 300,000 tonnes

Qatar: Nil compared
to 1 mn tonnes
