AYURVEDIC TREATMENT

Biodiversity-linked cultivation and water-positive targets are the key to Dabur's sustainability strategy

BY NEETU CHANDRA SHARMA

A **S CONSUMER GOODS** companies face scrutiny over sourcing, packaging and resource use, Dabur India is linking its ayurveda portfolio more closely with sustainability and supply-chain planning. The company says it has eliminated coal from operations, ensured that 61% energy it uses in India is renewable, and is working with nearly 15,000 farmers for cultivation of
