

DECODING INDIA'S PATH TO PROSPERITY

Sanjeev Krishan,
Chairperson, PwC in India

» Krishan said India must prioritise quality education and healthcare to convert its demographic dividend into productivity and embrace “big” scale enterprises while building long-term capabilities

Mathew Cyriac, *Executive Chairman, Florintree Advisors*

» Cyriac defined prosperity as creating inclusive, long-lasting jobs, especially at the bottom of the pyramid, highlighting the social ripple effect of such empowerment

Namita Thapar, *Executive Director, Emcure Pharmaceuticals*

» Thapar broke down prosperity into three parts—personal, corporate, and national. She said personal prosperity means peace of mind, integrity, and simplicity

something to fear. It is something to embrace. When you see the wave coming, you don't run from it, you ride it,” he said

» Kalra, addressing the elephant in the room—artificial intelligence, said, “For an industry built on human talent, AI posed a daunting question if it would replace engineers.” His emphatic answer: No!

» Finally, Lakshmanan shared how the pandemic had reshaped his company's trajectory. “Hybrid work is here to stay,” he said

MANAGING THE MIND

Swami Gaur Gopal Das, *Personal coach, Author, Monk, Lifestyle & Motivational Strategist*

» At the opening session of *Business Today Mindrush*, renowned personal coach and lifestyle & motivational strategist Swami Gaur Gopal Das highlighted the critical importance of mind management, especially in today's fast-changing world

» He urged everyone to listen to their own inner voice amid the noise, emphasising balance, not extremes, as the key to sustainable success
