

BREAKING BOUNDARIES, CHALLENGING CONVENTIONS

Hina Nagarajan
MD & CEO
Diageo India

Celebrating 25 years of Keep Walking

The 'Keep Walking' brand philosophy by Johnnie Walker has motivated me to face challenges, discover new opportunities and grow. Even after all these years, "Keep Walking" continues to find a deep personal connection with everyone, including our employees, partners, and customers. This phrase represents a positive affirmation and encourages us to move forward on the road to progress. It reflects the ethos of an infectious energy of wanting more from life, to keep discovering, relishing, and keep moving forward.

To celebrate 25 Years of Keep Walking philosophy, we launched a new campaign called "Can't Stand Still," featuring global icon Priyanka Chopra Jonas. As an actor, musician, entrepreneur, and philanthropist, she truly embodies "Keep Walking" – while pushing boundaries and creating impact globally. "Can't Stand Still" is a celebration of perpetual motion and a refusal to be stagnant. It pays tribute to those who are breaking the boundaries, challenging conventions, and reimagining what success looks like in their lives.

As I move on to my new role as President of Diageo Africa, I feel inspired by this campaign. 'Can't Stand Still' is a celebration of perpetual motion and a refusal to be stagnant. It pays tribute to those who are breaking boundaries, challenging conventions, and reimagining what success looks like in their lives. I can relate to the infectious energy of wanting more from life, to keep discovering and moving forward. It's a rallying call for today's generation that is constantly on the move

to savour every moment for a fuller life. When the campaign launched, it made me reflect on my 25+ years of experience in the corporate world that has taught me the most valuable lessons:

- Push boundaries, go beyond the comfortable, find out dimensions to yourself that you didn't know existed.
- Be a trailblazer, discovering new experiences along the way.
- Don't be afraid to take that next step, even if it means breaking away from the pack. Accept the challenge, face it, and move forward.
- Focus on relentless progress and exploration with the constant pursuit of new experiences and adventures.
- Celebrate each other's efforts in your wins every day. Together, we can achieve lofty goals and surpass expectations.
- Leaders must find their purpose and help others find theirs. My purpose is to live and help all those around me live a life of impact and meaningfulness. My leadership style is built on two fundamental truths - everyone wants to build a legacy and people often do not know their potential until someone challenges them to stretch. Every day is a new opportunity to guide someone, do something positive, and drive change. During my four-year journey with Diageo India as MD & CEO, we have achieved remarkable milestones, delivered a strong financial performance, navigated challenges, and celebrated numerous successes. Our overall business growth has nearly tripled in the period from 2021-23 vs. 2016-21 and our market capitalization crossed INR 1 trillion up last year. I am optimistic about the vibrant opportunity India presents for our industry and business, driven by agility, innovation and collaboration. We will continue to 'Keep Walking' towards a brighter, more promising future delivering exceptional experiences to our consumers and making a positive impact on our communities. After all, it's a business of better, where profit and purpose go hand in hand.
