

Aviation Industry

Madhya Pradesh is working to expand its **aviation sector** by enhancing airport infrastructure and improving connectivity with major national and international cities.

Key Highlights:

- **Investment:** ₹1,400 crore.

- **Jobs Expected:** 1,000.

• Focus Areas:

- Development of **new airports**.
- Expansion of **air cargo and logistics** services.
- Improved **regional air connectivity** under the UDAN scheme.

The government is prioritizing **aviation infrastructure** to boost business travel, tourism, and cargo transport.

Infrastructure Development

Madhya Pradesh is making massive investments in **roads, railways, and public infrastructure** to support economic expansion and improve connectivity across the state.

Key Highlights:

- **Investment:** ₹1.30 lakh crore.

- **Jobs Expected:** 4,000.

• Key Developments:

- Railway electrification completed, with 80 railway

stations under development.

- Expansion of national highways and state roads to improve logistics.
- Smart city projects enhancing urban infrastructure. With better roads, rail networks, and smart cities, Madhya Pradesh is ensuring seamless connectivity for businesses and citizens.

Electric Vehicles (EVs) & Automotive Sector

Madhya Pradesh is emerging as a leader in the **electric vehicle (EV) revolution**, with a growing ecosystem for **EV manufacturing, battery production, and charging infrastructure**.

Key Highlights:

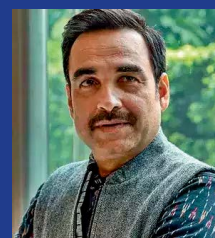

- Over 2 lakh EVs registered as of January 2025.

- Pithampur (also called “The Detroit of India”) houses **Asia’s largest automotive testing center (NATRAX)**.

- **MP Mobility Expo** showcased EV innovation, attracting **30+ Original Equipment Manufacturers (OEMs)**.

• Focus Areas:

- Promoting **electric buses, two-wheelers, and commercial EVs**.
- Developing **EV charging stations and battery swapping networks**.

“Twenty years ago, I played the role of a guide in a film shot here. Since then, I have fallen in love with

MP. Domestic tourists should know that everything they seek abroad is right here in Madhya Pradesh. I will be visiting with my entire family next month.”

Shri Pankaj Tripathi

Actor & the state’s brand ambassador

- Encouraging **EV startups and R&D centers**.

With its strong **automotive base** and government support, Madhya Pradesh is on track to become a major **EV manufacturing hub**.

IT & Digital Economy

Madhya Pradesh is embracing the **digital revolution**, investing heavily in **information technology (IT), artificial intelligence (AI), and automation** to drive future economic growth.

Key Highlights:

- **Investment:** ₹78,000 crore.

• Key Focus Areas:

- Development of **IT parks and tech hubs**.
- Promotion of **AI, automation, and data analytics**.
- Expansion of **fiber-optic broadband connectivity** across the state.

With **rising investments in technology**, the state aims to attract **global IT firms, startups, and software companies**.
