THE AI MAN

SAMEER DHANRAJANI

securing large AI & Analytics engagements & deals and creating significant client impact. Known for his ardent passion and deep networking skills in AI & GCCs industry, Sameer is a huge influencer in this space and is a well-recognized keynote expert, moderator and speaker at several global industry forums and conferences. Sameer consults with boards & CXO's of Indian & Global enterprises and GCCs on evangelizing AI Strategy for Growth, Innovation & Transformation; frequently conducts bespoke masterclass and workshops with contextualized playbooks & frameworks on AI Strategy.

A 5-times TEDx speaker, bestselling author, columnist, imparted 350+ AI curated talks, masterclass, workshops & keynote sessions; Sameer has been also frequently quoted across business media and news publications and is recipient of multiple awards and recognitions including Top Visionaries CEOs in 2024 by Times of India & Top emerging voices of India by YourStory. Sameer is also associated as AI advisor on AI policy matters with multiple state governments and is instrumental in leading the effort for positioning India as a premier destination in AI.

At 3AI, Sameer along with two credible co-founders created pioneering properties & offerings to build & scale curated thought leadership personas of several AI & Analytics leaders from multiple organizations and enabled 400+ GCCs to accelerate their growth trajectory with seamless marketplace integration with partner ecosystem through GCC SPHERE. 3AI have executed several novel interventions & engagements to build premier thought leadership, accentuate mindshare, branding & visibility, enhance talent outreach & advocacy and scale leadership & professional development for partner GCCs & organizations in the Data, AI & Analytics

segments.

At AIQRATE, A bespoke global AI advisory & consulting firm, Sameer leads the advisory services & consulting offerings and work with several GCCs, Indian Enterprises, Technology, BPM & Cloud players, Pure play AI providers, PE/VC firms to curate AI transformation strategy roadmap, build state of art Gen AI CoE, craft differentiated GTM & Sales strategies, create new-age AI capabilities, offerings & solutions and consult on competitive intelligence and future forward landscape of AI & GenAI.

A fast tracker with 25+ years of different genres of stellar industry experience, Sameer has donned various leadership roles in consulting, GCCs, bellwether technology organization, pure play AI firm to help build large AI businesses & deliver transformative and innovative AI & Analytics advisory offerings and consulting offerings to several GCCs & Enterprises. Previously, Sameer was Chief Strategy Officer at Fractal Analytics and Global Business Leader for Analytics & Data Sciences at Cognizant Technology Solutions. Prior to Cognizant, Sameer served as Country Head at Fidelity National Financial GCC.

Choosing Risk over Comfort and taking the path less traveled; Success to Sameer means taking onerous approach to become more responsible. **"Now there are multiple stakeholders. As the CEO, you feel a little heavier on the shoulders and now ,we have lot more opportunities to create success for our leaders & partners. Gen AI has upended the level playing field and we need to be more inquisitive, hungry, determinist and a zealous learner than before,"** he says. Without a doubt , Sameer continues to challenge the status quo in the path to accomplish his unwavering mission.
