

It's New, It's Clear, It's Nuclear

NTPC, India's largest integrated power utility,
enters the realm of Atomic Power with

ASHVINI

ANUSHAKTI VIDHYUT NIGAM LIMITED
(A Joint Venture between NPCIL and NTPC)

&

NPUNL

NTPC PARMANU URJA NIGAM LIMITED
(A Wholly Owned Subsidiary of NTPC)

NTPC - COMMITTED TO ACCELERATE NUCLEAR POWER DEPLOYMENT IN THE COUNTRY

NTPC is leveraging nuclear energy's reliability through its ASHVINI and NPUNL projects, targeting 2 GW capacity by 2032. As the first Indian energy company to declare Energy Compact Goals at the UN HLDE, NTPC is committed to net-zero emissions by 2070. By adopting nuclear energy, NTPC is reshaping India's energy landscape, driving economic growth, and ensuring sustainability.

BENEFITS OF NUCLEAR POWER GENERATION

Zero Emissions:

Nuclear power plants produce no greenhouse gases, making them a sustainable energy source.

Reliable Energy:

Nuclear energy ensures round-the-clock electricity, meeting India's growing demand.

Top-Notch Safety:

Defence-in-depth design, with multilevel safety systems and a closed fuel cycle.

Empowering Communities:

Socio-economic development of communities living in the vicinity of plants for inclusive growth.

50 YEARS OF POWERING INFINITE POSSIBILITIES FOR INDIA
