Health built its own digital platform by investing ₹600 crore. Today, the system is used internally and is being adopted by other hospitals. “When everyone developed digital healthcare solutions for desktops, we moved to the cloud. We were also the first to adopt a mobile-first approach,” says Shetty.

Another critical decision was to integrate robotics and AI-driven diagnostics to reduce dependency on high-cost specialists. “The biggest cost in a hospital is manpower, and AI can significantly enhance the efficiency of doctors,” he says.

HEALTH INSURANCE FORAY

As Narayana Health expanded, Shetty realised that the missing piece in healthcare was affordable health insurance. To bridge this gap, Narayana Health became the first hospital group in India to start an insurance company. On January 8, 2024, Narayana Health Insurance Ltd., a wholly-owned subsidiary, received a licence from the Insurance Regulatory and Development Authority of India to operate as a standalone health insurance company. The company plans to use technology and AI to simplify health insurance and offer personalised care plans, with
