

## REDEFINING BANKING

(From left) **Shailendra Bhatnagar**, Editor (Markets), BTTV; with **Sanjay Doshi**, Partner and Head, Financial Services Advisory, KPMG in India; **Asheesh Pandey**, Executive Director, Bank of Maharashtra; and **Harshvardhan Lunia**, Co-founder & CEO, Lendingkart

» Doshi of KPMG in India admired the technological advancements in India and said the country is ahead of its peers. He added that the quality of data is very important and since a lot of decisions on digital policy is dependant on data, work needs to be done as incorrect data leads to bad output

» Pandey said Bank of Maharashtra

is using machine learning and AI-based algorithms, especially in collection of loans, to strengthen the system

» Lunia said the banking sector is seeing strong demand. He added that the sector is growing and predicted that financial services companies will continue to boom in the near to medium term
