

THE SOLITAIRE GROUP: DARE TO DREAM!

The making of a sparkling 'Solitaire' in the real estate sector began from a vision nurtured by Mayank Jaiswal, who was born in 1973 in Prayagraj, Uttar Pradesh, traditionally a pilgrimage and educational hub of India. After graduating from Allahabad University, he travelled extensively, gaining exposure and experience from diverse successful ventures. Eventually, he found his passion in the real estate business headquartered in his hometown to which he has a strong allegiance. Armed with a desire to redefine the real estate sector in India, he set out to pursue his vision to develop meaningful projects.

MAYANK JAISWAL

In 2014, Mayank Jaiswal, went on to launch a pioneering project named Solitaire Valley, which is the largest township of Uttar Pradesh. Solitaire Valley is a planned township with a goal to house 15 thousand families from diverse socio-economic backgrounds. It was inspired by a shared objective of making affordable and quality residential properties aligned to the vision of the honorable Prime Minister Narendra Modi ji's commitment towards providing a home for every Indian through Pradhan Mantri Awas Yojna. UP Chief Minister the honorable Yogi Adityanath ji spared no efforts in supporting this national vision.

With ambitious plans to modernise and boost infrastructure development for multi-faceted and socio-economic growth of Uttar Pradesh, he encouraged private developers by easing all processes and ensuring transparency. To showcase the immense religious and tourism potential of the state, various destinations were given a complete makeover. In particular Ayodhya, which has recently witnessed a huge in-flux of national and international tourists and pilgrims following the grand inauguration of the temple dedicated to Lord Ram on 22nd January, 2024. At the forefront in bringing about perceptible transfor-

mation and leadership in the industry, the Solitaire group have delivered affordable, and socially responsible homes in their township and are well on their way in developing the first and only 5 star hotel approved by the Ayodhya Development Authority to date, under the brand of The Solitaire expected to be launched in late 2025.

Solitaire Valley was the outcome of The dream of a Utopian society. It was planned with a strong sense of community built with futuristic features of conservation and best practices regarding sustainability. Manyank's Co-Founder, Shivani Jaiswal, a prolific thinker, brought new ideas, including defining the firm's philosophy - The Panchatatva, that has been incorporated into the modern and integrated township. Many firsts were created in the township focused on responsible community living, including a main 30 metre wide artery to facilitate ease of movement and connect the township, 56% green space where a mere 30% is adequate, water harvesting units and solar panels to meet the water & energy needs of the township. Solitaire became the talk of the town and the city was proud to honour its son Mayank Jaiswal, with several accolades and awards. He humbly dedicated these achievements to the entire team, many of whom have grown

with the company, and embodied the mission statement of a passion for excellence.

In a quest for innovative ideas, Mayank convinced his friend of 30 years, Anilesh Ahuja to join the board of the Solitaire Group. Anilesh's credentials include a successful career of three decades on wall-street holding global leadership roles in banks building various aspects of the real estate business all over the USA and the Caribbean. Excited by the amazing opportunity to scale The Solitaire Group in India, and a deep desire to reconnect with his roots, he joined the Group in October, 2022. This team of aggressive business builders with vast experience in all aspects of understanding finance, strategic trends, and a keen sense of execution, is now a formidable force to reckon with.

Today, the leading real estate entity has come a long way from its humble roots in Prayagraj. The desire to dream is deep rooted in the firm's culture, already having expanded into luxury and wellness projects in Lucknow and Goa and aggressively seeking opportunities across India. The Solitaire Group is in the safe hands of Mayank, Shivani and Anilesh, who are charting an ambitious road map to make an impactful global presence!
