

BONDADA ENGINEERING LTD.

Reaching new heights of success with consistent determination!

Bondada Group, a trailblazer in the telecom, renewable energy and green construction products sectors, has made significant strides in its industry since 2012. The group mainly focuses on EPC and O&M activities in Telecom and Renewable energy sectors apart from diversified products in its kitty. Dive in to experience the success story of Bondada Group, a pioneer in its industries, led by visionary leader Dr. Bondada Raghavendra Rao, Chairman and Managing Director, discover the essence of the group and the inspiration that has fueled its remarkable achievements.

Bondada Group has established itself as a leader in the rapidly expanding markets of India, including 4G and 5G telecom, solar/renewable energy, and green construction products. As the company marks its 12th year anniversary, the company has seen many positive developments unfold this year. The company's financial performance has been consistently strong, leading to steady increase in revenue. Over the past decade, The company has achieved an impressive compounded annual growth rate, with consolidated revenue reaching INR 800 crore for FY 23-24 as per audited financials. The company's remarkable expansion in just twelve years is a direct result of the unwavering commitment of its team of highly skilled professionals with a wide range of abilities. At its core, the company cultivates a culture of excellence and continually incorporates improved values to fuel its expansion.

The company's long-term growth is attributed to its impressive project management skills, delivery excellence, robust order book, professional management team, segmental business structure, strong internal controls, dedicated business lead as COO, detailed budgetary monitoring, and robust management information systems. Dr. BR Rao is optimistic that the telecom and solar sectors are expected to continue to thrive in India well into 2030, ensuring sustainable growth for the company.

On August 30, 2023, Bondada Engineering Limited's initial public offering (IPO) was listed on the Bombay Stock Exchange (BSE), resulting in a surge of investor interest and an impressive rise in stock prices. After a successful IPO launch, market enthusiasts quickly picked up on the momentum, describing it as "Sabka Dada Bondada!". Bondada Engineering (Bondada) has achieved a significant milestone on the Bombay Stock Exchange, with its market capitalization surpassing INR 3650 crore as on 08th May 2024. The company extends its sincere appreciation to its shareholders for their unwavering support and unwavering confidence in the company.

“Achieving success requires effort and determination. Success often comes to those who possess a combination of natural talent, dedication, determination, continuous learning, diligent study, willingness to make sacrifices, and above all, a genuine passion for their work.”

The company describes they have great market opportunities both in telecom and renewable energy sectors in India till the year 2030. Transformation of 4G to 5G in India needs improved infrastructure facilities both in terms of towers and fiber. This creates business opportunities to all EPC companies like Bondada.

Government of India is eyeing to charge 500 GW renewable energy plants in India by 2030 of which only 75 GW is implemented so far. This gives huge market opportunities to EPC players like Bondada
