USTAINABILITY IS TRANSFORMING the way businesses operate and grow. The inaugural BT India's Most Sustainable Companies Summit & Awards honoured corporate leadership in sustainability, ESG compliance, and responsible business practices. Key stakeholders across industry, government, finance, and sustainability addressed challenges around green energy. The conversation focused on how corporate India is building trust through ESG strategies, climate action, and transparent stakeholder engagement. From capital markets to consumer behaviour, several sessions unpacked how sustainability is reshaping business imperatives in India. Experts said climate change isn't an environmental problem but a developmental one. They also underscored the
