

HITS, School of Management: Driving excellence in management education

Dr. Anand Jacob Verghese
Chancellor
Hindustan Institute of Technology and Science (HITS)

Hindustan Institute of Technology and Science (HITS), in its pursuit of developing business leaders and global administrators, sets a benchmark in providing management education through its School of Management, which accelerates growth, business management, entrepreneurship, and beyond. The Hindustan Institute of Technology and Science (HITS) is a shining example of excellence, innovation, and global outreach in India's education ecosystem. HITS is a part of the illustrious Hindustan Group of Institutions (HGI), established by the Visionary Dr. KCG Verghese and is presently headed by Chancellor Dr. Anand Jacob Verghese. It exemplifies the inspirational motto mooted by Dr. KCG Verghese, 'To make every man a success and no man a failure'. Entrepreneurship, global tech infrastructure, and ensuring future-ready individuals are a top priority at HITS. Over its 25 years of existence, the School of Management at HITS has developed numerous business leaders and trailblazers across 12 different domains. A vibrant entrepreneurial ecosystem is nurtured by HITS through the seamless integration of academic rigor with industry partnerships and experiential learning. The Hindustan Entrepreneurship and Innovation Center (HEIC) is a unique initiative that allows students to accelerate their startups and entrepreneurial

ventures with absolute efficiency. Strategic partnerships are maintained by HITS with 150+ institutions in 42 countries, which includes notable collaborations with Cranfield University UK, Dongguk University, GCU Korea, and Trier University Germany. The university ensures strong industry integration by collaborating globally with industry leaders like Boeing, IBM, and Royal Enfield. These partnerships allow students to bridge the gap between classroom knowledge and real-world application.

The university's focus on AI and ML-based learning, innovation, and implementation is spread across multiple departments, including architecture, bio-tech, automobile, technology, and science. HITS is home to 16 specialized Research & Skill Centres, serving as innovation powerhouses. With over 6,100 research publications and 219 patents filed, researchers are addressing real-world challenges in clean energy, underwater robotics, hydrogen and defence technologies. Five faculty members are ranked among the top 2% of scientists globally in the Stanford rankings, which is impressive.

Offering over 110 programs across disciplines such as engineering, aviation, law, design, architecture, liberal arts, health sciences, and management, HITS fosters a holistic educational ecosystem. Whether it's Aeronautical Engineering or

Artificial Intelligence, Cybersecurity or Civil Engineering, students are prepared for future-ready careers through experiential learning and world-class infrastructure.
