

INDIA'S GREEN REVOLUTION GROWS: BALRAMPUR CHINI LAUNCHES BIOYUG

Balrampur Chini Mills Ltd formally launched India's first biopolymer brand, Balrampur Bioyug, at Jio World Convention Centre, Mumbai in the presence of **Hon'ble Chief Minister, Maharashtra, Shri Devendra Fadnavis**, on May 27, 2025.

The inauguration ceremony took place with the traditional lamp lighting in the presence of dignitaries, **Shri Sharad Pawar (MP), and Shri Manoj Kr. Singh, IAS, Chief Secretary & IIDC, Uttar Pradesh & senior officials from BCML**. Adjacent to BCML's sugar mill in Kumbhi, Uttar Pradesh, India's first industrial-scale biopolymer plant is set to launch in October 2026 with an investment of ₹2,850 crores. This pioneering PLA facility will integrate the entire sugarcane-to-PLA process under one roof, powered entirely by renewable energy—making it a global first accomplishment.

"Our PLA venture is well - aligned with the sustainability goals envisioned by the Hon'ble Prime Minister of India, in order to combat climate change and also aligned with Dept of Biotechnology's BioE3 policy which will foster a high performing bio manufacturing economy

with energy, economy, and environment. Additionally with the roll-out of the UP Government's first-ever Bioplastic Policy, we felt empowered to confidently enter

this dynamic sector, aligning growth with national environmental goals. Maharashtra's agro - industrial strength can lead India's bioplastic shift - I urge the
