

Transforming Customer Interactions: The New Face of Insurance with Chola MS

The insurance industry is undergoing a paradigm shift in how it engages with its policyholders. Traditionally seen as a transactional relationship, today's insurers are moving towards a more customer-centric, experience-driven approach. At the heart of this evolution lies a growing focus on personalization, technology, and trust-building – areas where **Chola MS General Insurance** is leading the charge.

With the rise of digital transformation, policyholders now expect seamless, faster, real-time services across channels. Insurers are leveraging AI-powered chatbot's, intuitive mobile apps, and self-service portals to offer 24/7 accessibility. True to its **brand essence #simplehai**, Chola MS has embraced this change with a robust omni-channel presence that includes WhatsApp servicing, app-based claims tracking, multilingual support, and AI-based damage assessment (**SahAI**) – **a cutting-edge tool delivering 95% accuracy** in car claims evaluation. The integration of such tools is helping bridge the gap between service expectations and delivery.

Beyond digital convenience, insurers are also adopting proactive communication models to continue having a consistent communication with its policy holders. From reminders for policy renewals to timely updates during claims processing, Chola MS **#pledge2protect** its policyholders at times of crisis. These small but significant interventions are reshaping the policyholder experience and redefining industry norms.

Managing Director

Another critical transformation is the move from product-selling to value-delivery. Chola MS has touched the lives of over **4.08 Crore customers**, with **74.3%** of its portfolio driven by the **retail segment** – highlighting its strong focus on individual policyholders. Chola MS not only offers tailored insurance products but also creates meaningful engagement through various wellness initiatives, educational content, and awareness campaigns – helping customers make informed decisions. The company has built a deep-rooted presence across **1.68 Lakh Gram Panchayats**, transforming access to insurance in rural India and reinforcing its commitment to inclusive protection. Furthermore, the company's investment in data analytics allows for more accurate risk assessments and personalized recommendations, ensuring that customers receive solutions aligned to their needs and life stages.

Chola MS also emphasizes sustainability and corporate responsibility, participating in community initiatives that build goodwill and reflect its core values. In an era where customer loyalty is hard-won, Chola MS is setting new benchmarks through its customer-first approach. By focusing on accessibility human connections with empathy and proactive engagement, Chola MS isn't merely selling insurance – it's building enduring partnerships.
