A Dangerous Drift

The advent of the Janata Government at the Centre and in a majority of the states has succeeded in resurrecting the controversial language issue nearly a decade after the last *Angeezi Hatao* agitations. The real conflict, however, is not between Hindi and English but between Hindi and other languages.

English is sought to be continued only as a

buffer against Morarji Desai Hindi's onslaught on the other languages. Hindi is feared for a more fundamental reason. It is seen by the non-Hindi speaking regions (especially the south) as the spearhead of a movement to impose the ethos of the backward Hindi belt on the entire country. The conflict is between two ways of life—of the economically and educationally backward but populous Hindi midland, which fancies itself as the heart and soul of India, and the relatively advanced coastlanders who have a different ethos.
