

collective culture of classroom instructions and external learning involving real life experiences towards enriching the right attitude ultimately determining the altitude in life. It is the result of excellent teaching methodology that our students are successful in gaining meaningful employment in esteemed Indian and multinational conglomerates like TCS, Polaris, Escorts, JCB, V-Customer, Hyundai, Punj Lloyd, HCL, ICICI Bank, HDFC, Max New York Life Insurance, Eli Lilly and many more. This year the group was successful in placing 910 students in top 110 companies.

### RESEARCH QUALITY

SGI believes that research and teaching are inextricably linked, which is to the benefit of the students. The teaching environment is enhanced by scholars who are at the cutting edge of research in their respective disciplines. The research work at institute is inspired by eminent faculty members hailing from leading research institutions and industry.

### SGI - VISION 2020

Mr. Gupta looks optimistic about the job markets in India. He says, 'Most of the top Indian companies have now considerable global presence. The manufacturing, IT, healthcare, infrastructure, retail, insurance and agriculture sectors are on the rise and are poised for further growth, so qualified experienced professionals will be in great demand'. To fulfill the needs of the future, Team SGI is geared to take up these challenges and is already offering specialised programmes in the futuristic streams like bio-technology, microbiology, medicine, para-medicine, pharmacology, etc. at its knowledge centres spread across the country. SGI aspires to enrol, teach and create 1 lac professionals per year by the year 2020. The multi specialty 500 bedded Sharda Hospital at Greater Noida will be upgraded to 10000 bedded medical institution. This will facilitate practical knowledge to the large number of medical students so that they can serve the society better. The ultimate objective of the group is to offer education from primary to postgraduate and research programmes at tertiary level. SGI is set to acquire deemed-to-be-University status in the near future. In all, Mr. Gupta visualises that educational incubators shall be established all across the country to provide a pool of resources and a platform be available to all aspiring professionals to achieve academic excellence at par with global standards. He strongly feels that converting India from a developing to a developed country will be possible only when we will have enough trained and competent teachers who will produce the best of the brains in our schools and colleges facilitating in making of an efficient workforce, which will take India higher and further, and the vision of making India a super power by 2020 will be fructified

Sharda Hospital, Greater Noida
