 HOMOEOPATHY
 WORKS

SBL - It has made a world of difference to Homoeopathy

Assured quality, cost effective and instant acceptability - the one name that comes to mind is SBL. It is the leading homoeopathic medicines manufacturing company in India offering a wide range of world class remedies including generics, biochemic/combinations as well as specialties and cosmoceuticals.

Dr. Jugal Kishore
Chairman Emeritus

"Achieving a method to determine the sensitivity of a patient to a specific medicine accurately to bring about cure."

The project was conceived by eminent homoeopath Dr. Jugal Kishore. He found that skill of Indian homoeopathic doctors was equal to or even better than anyone in the world, on the other hand he found that the quality of homoeopathic remedies made in India at that time was poor compared to remedies made in developed countries like France and Germany. It became his passionate mission to set up a well equipped and modern factory in India to produce homoeopathic remedies as good in quality as anywhere in the world. He found that Laboratories Boiron of France was ahead in many respects even to Germans. He, therefore, finalised technical and financial agreements with Laboratories Boiron of France and the first unit was established in 1983 at Sahibabad (Uttar Pradesh).

Dr. Jugal Kishore not only continued to be a Director but in fact is Chairman Emeritus of SBL.

Two more state of the art units were later added in Jaipur and Haridwar and today SBL has the largest manufacturing capacity not only in India but in Asia too. SBL manufactures wide range of homoeopathic medicines comprising of more than 11,000 remedies.

*SBL's latest state-of-the-art plant at Haridwar.
Two more plants are operational in Jaipur and Sahibabad.*
