

Take stock before invest

Evaluate the risk associated with investment in securities market and invest to match your risk tolerance.

Don't get misled by market rumors, luring advertisements, internet web sites.

Look at key indicators like performance of the company, future prospects, industry trends, past track record of management, P/E ratios etc before deciding on the security to invest in.

Buy and sell securities only through SEBI registered intermediaries.

Read carefully and understand the contents of the "Risk Disclosure Document" and then acknowledge it.
