

HOW MUCH ELECTRICITY DOES YOUR COMPANY WASTE EVERYDAY?

Save up to 50% of your electricity bill with connectgaia.com

By not knowing where or how your electricity is being distributed or consumed, you could waste at least 50% of your power. That's why we bring you connectgaia.com – the world of intelligent electricity. It's a low cost web-based solution that optimizes power usage by pinpointing wastage in lighting, air-conditioning, machinery, other operational and energy consuming units. And with no software to install or maintain, you do not need to become an energy management expert.

With connectgaia.com, you will not only make a significant saving on your energy bills but also protect the environment from CO₂ emission. Developed on technology from IBM, it is truly the intelligent electricity for the new world.

MEASURE, VISUALIZE, ANALYZE, CONTROL AND SAVE™

REAL-TIME, ANYWHERE, ANYTIME – ACROSS THE ENTERPRISE THROUGH CONVERGENCE OF POWER AND INTERNET NETWORK.
