

HERMÈS SWIFT KELLY 50 RELAX TRAVEL BAG

► The Kelly 50 Relax takes one of the world's most recognisable bag silhouettes and enlarges it for weekend duty. The Swift calfskin leather is soft and luminous, while palladium fittings keep the look crisp. The elongated handle slips over the shoulder, the turn-lock and clochette deliver theatre at the clasp, and the 50-centimetre width makes it a practical carry for short hops. The Relax variant appears periodically through top resellers and auction houses, which is part of its appeal.

ONKYO H900M HEADPHONES

► Nothing says decadent travel like shutting the cabin out with diamonds on your ears. Onkyo took its H900M over-ear headphones and created a made-to-order edition studded with 20 carats of diamonds on the earcups, with a ruby marker to distinguish right from left. The project debuted during the CES 2017 event. This is audio as jewellery and theatre, yet it rests on a serious platform that was designed for high-resolution listening.
