

and economic growth.

Strengthening Financial Inclusion

midfin360 simplifies complex financial products, making them accessible to users across India. It empowers even first-time investors to begin their journey with clarity and confidence.

Digital-first Infrastructure

By reducing dependency on manual paperwork and traditional channels, midfin360 supports India's Digital Public Infrastructure (DPI) goals. It aligns with the government's vision for paperless, faceless, and cashless finance.

Atmanirbhar Bharat

midfin360 strengthens the financial independence of individuals by offering smart, unified access to investments, savings, and credit. In doing so, it supports the broader goals of Atmanirbhar Bharat by fostering self-reliance, financial literacy, and inclusive economic participation.

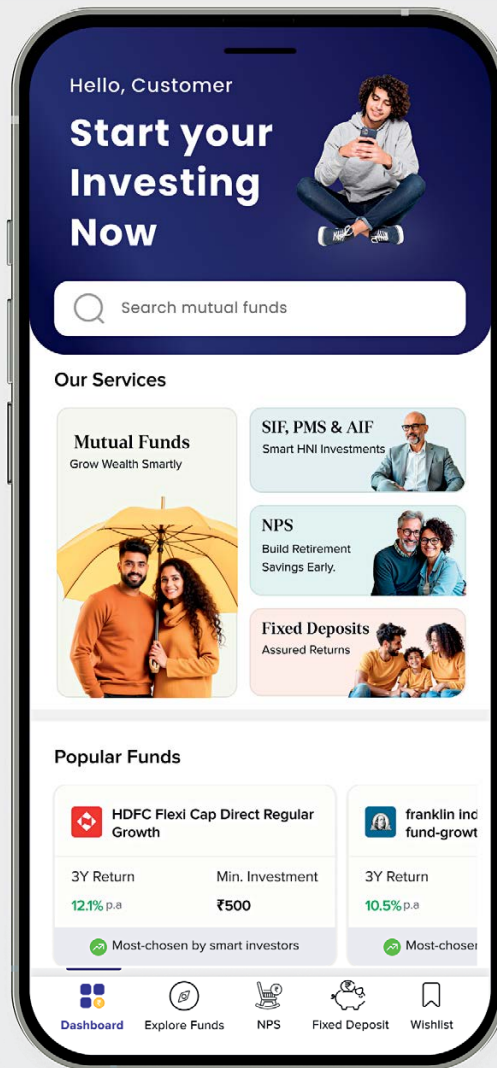

Making Financial Confidence a Reality

In a growing economy, financial confidence today comes not just from access to products but from clarity and control. As investors juggle multiple accounts across fragmented platforms, the need for a unified wealth management solution has become a key priority. This is the gap that midfin360 addresses by bringing investments, credit, and protection into a single, real-time dashboard. For high-level officers, active investors, and even first-time savers, it enables better

financial planning, more informed decision-making, and a complete view of one's financial health—all in one place.

Leadership, Purpose, and the Path Ahead

With over 17 years of experience across investment advisory, portfolio management, banking, and business development, the leadership behind midfin360 has consistently guided individuals and businesses through complex financial landscapes—grounded in trust, clarity, and results.

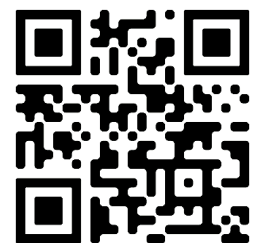

Anbarasan Venkatachalam, the Founder & Director of midfin360, has always been driven by a passion to transform traditional financial services through digital innovation and inclusive technology. midfin360 is the result of that vision: a 360-degree wealth management and digital banking platform designed for every type of investor.

The product is live, launching at the end of October 2025, with more asset classes to follow in April 2026." As India embraces its digital future, midfin360 positions itself as a future-ready partner in building a more resilient and financially empowered nation.

"midfin360 is not just a platform—it's a vision to simplify wealth management for every Indian by bringing transparency and powerful financial tools into one place. Our goal is to empower individuals to take control of their finances while contributing to the nation's economic growth."

— Anbarasan Venkatachalam,
Founder & Director, midfin360
