

ments like chemotherapy easier and safer, including under-the-skin ports, comfortable long-term IV lines, tubing that safely delivers strong drugs, and medium-term catheters for patients needing care over several weeks. The 2019 acquisition of Plan 1 Health, an Italian company specialising in oncology access devices, strengthened Poly Medicure’s manufacturing capabilities and global reach. “We are now preparing to expand into cancer diagnostics and palliative care, focusing on patient comfort and quality of life,” says Managing Director Himanshu Baid.

Agilus Diagnostics is emphasising precision diagnostics through technology and accessibility. “AI-enabled analytics are improving interpretation accuracy and supporting treatment decisions,” says Dr. Anand K, MD & CEO at Agilus. Oncology contributes 30–40% of Agilus’s genomics revenue and 5–6% overall revenue.

Breast cancer alone accounts for 28.2% of female cancer cases. Dr. Lal PathLabs recently introduced QiAI Lymph Node Dx, a deep learning-based AI system primarily used for breast cancer, helping doctors detect whether the cancer has spread to nearby lymph nodes, including very small metastases, which is crucial for staging and treatment decisions. “Integrating AI strengthens our ability to detect even the most subtle signs of cancer,” says Executive Director Dr. Vandana Lal.

PUBLIC MEETS PRIVATE

The government has, in the past few years, made efforts to expand cancer care infrastructure. It has invested over ₹120 crore for State Cancer Institutes, ₹45 crore for Tertiary Care Centres, and plans

PHARMA FOCUS

GLOBAL PLAYERS

► GSK, Roche, Novartis, AstraZeneca, Pfizer, Merck investing in immunotherapy, targeted therapy, precision medicine

INDIAN FIRMS

► Sun Pharma,

Dr. Reddy’s, Cipla, Biocon, Zydus expanding biosimilars (Trastuzumab, Bevacizumab)

► Collaborations for companion diagnostics and clinical trials increasing

to set up 200 district day-care centres by 2025–26. The National Cancer Institute at AIIMS Jhajjar built at a cost of ₹2,035 crore, is among the largest public investments in the segment.

Charitable hospitals are complementing these efforts by providing subsidised or free care to underserved populations. Institutions like Chennai’s Cancer Institute
