A FAMILY OF CHEETAHS IN A ROCKY LANDSCAPE

Christie's London will stage a landmark sale on October 28: *Exceptional Paintings from the Personal Collection of Prince and Princess Sadruddin Aga Khan*. The auction brings to market 95 works of Indian and Persian painting, dating from the 16th to the end of the 19th centuries, once displayed at the couple's Lake Geneva residence, Château de Bellerive.

The collection spans some of the finest examples of its kind, many of which have been examined by leading 20th-century scholars and shown in major exhibitions. Estimates range from £2,000 to £1,000,000, with the group expected to exceed £8 million in total. One exceptional piece is the *Family of Cheetahs* attributed to Basawan, who is considered Mughal Emperor Akbar's most innovative and expressive artist.

For collectors, it represents a rare opportunity to acquire works personally chosen by the Aga Khans and long regarded as benchmarks in the field. **BT**
