BVLGARI OCTO ROMA CARILLON TOURBILLON

► Bvlgari, the Swiss watchmaker with a Roman soul, proudly presents its new masterpiece of sound, the Octo Roma Carillon Tourbillon. Whether they chime on two, three, or four gongs, repeat the minutes, or automatically ring the hours, the new Octo Roma watches play a new musical interval called tritone, created by Bvlgari in collaboration with the Italian-Swiss conductor Lorenzo Viotti. The watch comes in a 44 mm rose gold case, which also enhances the tonality and sound of the timepiece. The black semi-skeleton dial offers a view of the intricate manual-winding BVL 428 calibre at work crafted with 432 components, which chimes the hours, quarters, and minutes, striking the quarters on three notes. The sapphire crystal enhances clarity, ensuring every detail is visible.

ROLEX OYSTER PERPETUAL DEEPSEA

► Rolex has unveiled an original version of the Oyster Perpetual Rolex Deepsea. For the first time, Rolex has presented this divers' watch in 18k yellow gold, sporting a 60-minute bezel insert in blue ceramic and a blue lacquer dial with the powdered yellow name 'DEEPSEA' engraved on it. The ceramic high-performance compression ring in this timepiece is a technical advancement. The Rolex Deepsea is equipped with calibre 3235 and carries the Superlative Chronometer certification.

IWC SCHAFFHAUSEN PORTOFINO CHRONOGRAPH 39

► Combining classic design with a sporty complication, IWC Schaffhausen for the first time has introduced its timeless Portofino design launched in 1984 with a chronograph complication. The Portofino Chronograph 39 has been fitted with a five-link stainless steel bracelet, which can be interchanged with a calf skin leather strap, adapting the watch to suit different outfits. The watch is powered by the IWC-manufactured 69355 calibre, which consists of 205 individual parts. The calibre enables the measurement of stop times of up to 30 minutes and can be viewed through the sapphire glass case back.
