

VACHERON CONSTANTIN OVERSEAS CHRONOGRAPH

► To attract younger watch aficionados, Vacheron Constantin has added intense green dials and interchangeable straps to four of its new Overseas Chronograph models in pink gold. In harmony with the spirit of travel, the green dials are found on the 35 mm gemset, 41 mm date, 42.5 mm chronograph and 41 mm dual time models. Water-resistant to 150 metres, each of these new timepieces is equipped with a self-winding calibre. The movements feature an oscillating weight engraved with the collection's emblematic compass rose.
