

SMART MONEY MOVES

1

HAVE OPEN COMMUNICATION: Discuss your financial history, current income and debt, spending habits, and future goals

2

UNDERSTAND MONEY PERSONALITY: Identifying your financial personality helps bridge the gap and maintain clarity on financial needs

3

THE RIGHT ACCOUNT MODEL: There's no universal answer—some couples use a joint account while others prefer separate accounts

4

POTENTIAL PROBLEMS AND SOLUTIONS: One should compile a list of all debt, including student loans, car loans, if any, and find the right repayment solutions

5

PLANNING FOR A SECURE FUTURE: Discuss short-term needs like rent payment or car purchase, along with long-term goals like buying a house or starting a family
