

EQUITY PIONEER

WITH NEARLY 25 years in private equity—more than half of that at the Indian arm of Advent International—Shweta Jalan stands out as one of the few women at the helm of private equity in India. A graduate from Indian Institutes of Management Ahmedabad, Jalan has played a crucial role in shaping Advent India, building sector expertise in healthcare, consumer, IT, industrials, and financial services.

“We always strive to ensure that, during our stewardship, investee companies make a genuine transition from founder-led to management-led, evolving into professionally run busi-

HEALTHCARE FOR ALL

SHOBANA KAMINENI, WHO leads Apollo Healthco—a healthcare platform that combines the Apollo group's digital and offline healthcare services—is living the dream her father Dr Prathap C. Reddy envisioned decades ago. Her role at Apollo goes beyond managing a healthcare empire—it is about pushing the boundaries of care, technology, and innovation to create a healthier India.

“I was fortunate to see Apollo come to life up close, witnessing its power to change lives. My role has been to carry forward this mission with the same boldness and vision that my father started with,” she

says. The journey is not just about expansion, but also innovation, compassion, and “commitment to those who trust us with their lives”, she adds.

She has helped Apollo stay ahead of industry trends. “One of the toughest challenges was ensuring that the quality of care remained personal and compassionate, even as we scaled across the country.
