VINITA SINGHANIA'S JOURNEY

has seen numerous turning points, yet none as significant as her taking over the role of Managing Director of JK Lakshmi Cement in 1998 after her husband's sudden demise. "I had to quickly transition from a supportive role to leading a major business, requiring me to learn the intricacies of the cement industry ground up," she says. The cement industry, even in the most favourable conditions, is challenging, characterised by fierce competition and the need to have a robust regional presence. That experience instilled in her a deep understanding of operational dynamics and financial management.

Under her leadership, JK Lakshmi has expanded its production capacity from 0.5 million tonnes in 1982 to over 14 million tonnes today, establishing itself as one of the largest players in the country. Currently, the company boasts a network of over 400 cement dumps

and 4,000 channel partners across the North, West, and East.

She is not done yet. "The plan is to hit 30 million tonnes by 2030, and this expansion has been fuelled by our commitment to meeting the increased demand for infrastructure and housing solutions while prioritising environmental sustainability," she says. In order to meet the rising demand, she has committed to investing ₹8,000 crore and expanding production capacity.

In FY24, JK Lakshmi's gross sales increased 7% year-on-year (YoY) to ₹7,308 crore, and profit after tax increased 32% YoY to ₹488 crore. Its also posted enviable performance in the bourses—JK Lakshmi's stock price rallied 18% in the past year, even in a volatile market. This impressive show helped her return to the BT MPW list this year after 2017. **BT**
