

Madhya Pradesh Industrial Conclaves/Summits Propel Strong Socio-Economic Progress

FOCUS
MADHYA PRADESH

Dr. Mohan Yadav
Chief Minister, Madhya Pradesh

The upcoming Sagar Regional Industry Conclave on 27th September, 2024, the fourth edition of the series of successful conferences held in Ujjain, Jabalpur and Gwalior, is seen as the start of a journey to promote balanced and equitable development in Madhya Pradesh, while strategically attracting investors to the region for promoting industrial development and cooperation across the state.

Industrialists from India and abroad will participate at the event, seen as a precursor to the year 2025, which has been declared as the "Industry Year" by Chief Minister Dr. Mohan Yadav to leverage socio-economic development. Under this initiative, Madhya Pradesh's bi-annual flagship event "Invest Madhya Pradesh-Global Investor Summit 2025" will be held in Bhopal on 7-8 February 2025.

In an aggressive drive to promote the state as a favourable destination for investment, efforts are on-going to sell the concept of 'Invest Madhya Pradesh' through a series of regional industry conclaves and road shows being organised in big cities outside the state such as Mumbai, Bengaluru, Coimbatore, Kolkata. The recent Global Investors Summit held on 20 September, in Kolkata, West Bengal, was a major success with MP receiving investment proposals worth a whopping Rs 20,000 Crores. CM Dr. Yadav, while welcoming industries and investors assured them of all cooperation and assistance through flexible and inclusive industrial policies, including a single window system to facilitate industrialists, as there exists adequate potential in the state for all industrial sectors to prosper, thereby, strengthening economy, enhance industrial development and create more

employment opportunities.

At the Regional Industry Conclave at Gwalior, investment proposals worth over Rs. 8 thousand crores was received that focused on the theme of heritage, history, and industry. "Progress can only be achieved through coordination, a constructive attitude, and a conducive environment across all levels of governance," said Dr. Yadav, emphasising that industrial units are being established with a positive mindset. Madhya Pradesh's strong industrial infrastructure, natural resources, adequate land bank, network of roads, connectivity with all major states etc., are attracting investors that would also bring their ideas and creativity to the state.
