

MEENAKSHI HOSPITALS: A LEGACY OF EXCELLENCE, COMPASSION AND INNOVATION

Dr. S. Guru Shankar,
Chairman - Meenakshi
Mission Hospital and
Research centre .

A Journey of Healthcare Leadership

In the vast and evolving landscape of healthcare, Meenakshi Hospitals has emerged as a beacon of medical excellence, spanning across multiple regions in Tamil Nadu. With a profound legacy rooted in compassion, innovation, and patient-centric care, these hospitals - Meenakshi Mission Hospital and Research Centre (MMHRC) in Madurai, Meenakshi Hospital in Tanjore, and Meenakshi Super Speciality Hospital (MSSH) in Madurai are synonymous with advanced medical care that blends cutting-edge technology with heartfelt empathy.

Meenakshi Mission Hospital and Research Centre: 33 Years of Healthcare Leadership

Founded over three decades ago under the visionary leadership of Dr. S. Gurushankar, Meenakshi Mission Hospital and Research Centre (MMHRC) in Madurai has evolved into a 1,000-bed multispecialty healthcare powerhouse. With over 50 specialized departments offering everything from basic diagnostics to advanced treatments, MMHRC has consistently raised the bar by introducing groundbreaking medical technologies, such as the region's first Robotic Surgical facility and comprehensive cancer care units equipped with Mammi PET scans.

During the COVID-19 pandemic, MMHRC played a pivotal role by launching Tele-Health initiatives to ensure uninterrupted healthcare access, truly embodying the motto: "Always first, always best."

Expanding Specialized Services and Community Welfare : MMHRC is a leader in various specialized fields, including Cardiology, Neurosurgery, Oncology, and Emergency Medicine. Its introduction of a bone marrow transplant centre, PET-scan facility, and electrophysiology unit has further cemented its position as a forerunner in medical innovation. The hospital also champions equitable healthcare through its TeleHealth initiatives, extending its services to underserved regions in India.

Philanthropic programs such as Smile Train surgeries and meal distribution reflect MMHRC's commitment to community welfare, embodying the hospital's core value of 'Aram Seithu Pazhagu' - doing good for all.

Meenakshi Hospital, Tanjore: Transforming Healthcare with Compassion

Since its establishment in 2013, Meenakshi Hospital in Tanjore has transformed into a 250-bedded facility with major specialties. Known for its patient-centric care model, the hospital has distinguished itself as the sole provider of 24x7 pediatric and neonatal emergency services in the delta region. Its Cardiothoracic Surgery unit is the largest in the area, offering advanced life-saving interventions like Extra Corporeal Membrane Oxygenation (ECMO) for critically ill patients.

Innovation and Specialized Care: Meenakshi Hospital continues to innovate with cutting-edge technology, including the largest dialysis unit in the delta region
